

ARMOR OPTICS

HIGH PERFORMANCE SAFETY EYEWEAR

Assorted lens colors are available in every style.

Traditional Safety Glasses

For basic safety eye protection in the workplace or classroom, try our line of traditionally styled high performance safety glasses and goggles.

- Legacy I S80**
- Nylon frame.
 - Extendable temples.
 - Rounded lens bottom.

- Legacy V S80A**
- Nylon frame.
 - Extendable and ratcheted temples.
 - Rounded lens bottom.

- Legacy III S39**
- Nylon frame. Extendable temples.
 - Squared lens bottom.
 - Also available in a junior size for smaller faces.

Unless otherwise indicated, all of our safety eyewear have zero distortion, hard coated, scratch resistant polycarbonate lenses which filter out 99.9% of UVA and UVB light. Available in assorted lens colors, and some with anti-fog coating. Darker lenses are great for use as sunglasses, too!

Armor Optics high performance safety eyewear is precision engineered to exceed the high impact requirements of ANSI Z87.1. Choose from traditional styles or our highly popular sporty models. Whichever you choose, you'll find that all of our safety glasses and goggles offer outstanding protection, clarity of vision and wearing comfort.

Traditional Safety Goggles

Our traditionally styled goggles have a PVC frame with an adjustable elastic strap and provide great protection.

- Poseidons G2910** Traditional safety goggles with direct vents.

- Poseidons II G6810** Traditional safety goggles with indirect vents for chemical / splash protection.

Traditional Visitors Glasses

Frameless and durable, our visitors spectacles are a great alternative for both ongoing and occasional use in that they are sized to fit over many prescription eyeglasses.

- Vestas V88**
- Basic visitors spectacles.
 - Uncoated lenses.

- Vestas II V30**
- Larger visitors spectacles. Rounded.
 - Uncoated lenses.

- Vestas III V57**
- Larger visitors spectacles. Squared.
 - Uncoated lenses.

ARMOR OPTICS

HIGH PERFORMANCE SAFETY EYEWEAR

Special safety eyewear for special needs.

Armor Optics high performance safety eyewear is precision engineered to exceed the high impact requirements of ANSI Z87.1. Whether you need eyewear that is designed for smaller faces or eyewear that can fit over extra large prescription glasses, we have the styles for you. Find it hard to see when working up close? Then try our bifocal safety reading glasses!

Assorted Lens Colors

Bifocal Safety Reading Glasses

Bifocal safety glasses are a great option for vision impaired users. With magnifying diopters placed on the lower portion of the lenses, these glasses are great for situations where eye safety is necessary but the wearer also needs assistance to read or see objects up close.

- Two great styles of bifocal safety glasses: VenusX and Hydras
- Lens powers of +1.0, +1.5, +2.0, +2.5 and +3.0
- Lens colors of clear, sunglass grey, and indoor-outdoor
- Nylon frame, a soft nosepiece, and soft temple tips.

VenusX S7610Q Clear

Hydras S7710Q Clear

VenusX S7610Q I/O

Hydras S7716Q Grey

Safety Glasses - Special Sizes

Our safety glasses come in a number of different sizes. Our junior sizes, available in the most popular lens colors, are designed for narrower faces. We also have a few styles that have a wider and deeper lens structure in order to accommodate prescription glasses. Many standard styles also have extendable and ratcheted temple arms to adjust the glasses for the best fit over your ears.

ARMOR OPTICS

HIGH PERFORMANCE SAFETY EYEWEAR

Padded eyewear for extra protection.

Armor Optics high performance safety eyewear is precision engineered to exceed the high impact requirements of ANSI Z87.1. Choose from traditional styles or our highly popular sporty models. Whichever you choose, you'll find that all of our safety glasses and goggles offer outstanding protection, clarity of vision and wearing comfort.

Padded Safety Glasses

Chirons S28P

- Popular wraparound style
- Padded foam on inner side of lenses for extra protection
- Available in assorted lens colors

Convertible Padded Safety Glasses / Goggles

- Three styles of protective eyewear that can be converted back and forth between glasses and goggles
- Foam padding insert that clips onto the nosepiece can be easily snapped on and off
- An optional clip-on strap is available for the Eos model to convert it from a glasses to a goggles style of eyewear
- Our Chameleos models come complete with both temple arms and adjustable straps. Remove the temple arms, and snap in the strap and your stylish glasses have instantly been changed into high performance goggles!
- Available in popular lens colors

Sporty Safety Goggles

- Our sporty ANSI Z87 safety goggles provide great protection in a low profile, compact style for extra convenience
- Foam-padded eyecups
- Adjustable strap
- Small vents to the temple side of each lens help minimize fogging
- Model G31 is designed with a hinged nosebridge so the goggles can be folded to fit easily into your shirt pocket.
- Available in assorted lens colors, including IR shades for welding
