

# NOT JUST ANOTHER PRETTY FACE.

Venus Ramos, MD

Venus Ramos is more than just a beautiful woman; she is also a physician, lecturer, journalist, award winning fitness model, and a dedicated giver to her family and community. A talented woman of beauty, brilliance and compassion, she sets new standards for quality, distinctly setting herself apart from the competition.

## Introducing our newest model...

VenusX Safety Glasses

**VenusX** high performance safety glasses are also more than just stylish; they are premium quality and competitively priced as well. Precision engineered to exceed the most rigorous standards for safety, our **Armor Optics** safety glasses are increasingly popular with workers who wear them both on and off the job. And it's easy to see why:

- Consistent quality and durability.
- Excellent impact and 99.9% UVA/UVB protection.
- Distortion free lenses made from the finest materials.
- Light and comfortable fit.
- Wide assortment of sporty styles in various lens colors.
- Meets or exceeds ANSI Z87.1-2003 standards for eye protection.
- Some models are also certified to CSA, CE and JIS standards.
- New models are released regularly.

Safety glasses don't have to be ugly, and they don't have to be expensive either. You can pay less for cheaply made glasses with uncoated lenses and you can spend much more for glasses of similar quality, but **Armor Optics** provides your *best value* alternative. Your choice is as clear as our lenses. Clarity. Comfort. Care. Your eyes are windows to the beauty of the world. Protect them always. Protect them with **Armor Optics**.
